Douglas County Hosts Waterloo Lane Reconstruction Workshop

Minden, NV – Douglas County is hosting a Public Workshop concerning the Waterloo Lane Reconstruction Project on December 14th, 2017 from 5:30 p.m. to 6:30 p.m. at the Douglas County Community Center in the Ceramics Room. Residents along Waterloo Lane are encouraged to attend a workshop regarding the Waterloo Lane Reconstruction Project. Plans will be available for review and staff will be on hand to answer questions about the project.

“Waterloo Lane is a road we have heard a lot of public comment on, and we would really like residents to be aware of the work that will be conducted on this project,” said Douglas County Public Works Transportation Engineering Manager, Jon Erb. “This is an opportunity for residents to ask questions and view the scope of the project.”

Project Background:

Douglas County is in the process of finalizing engineering plans to go out for public bid on the reconstruction of Waterloo Lane from SR-88 to SR-756 (Centerville Lane). The reconstruction will include removal of the existing pavement, reinforcement of the roadbed base, new culverts, and new pavement with minor widening. Project funding for this project comes from the approved gas tax bonding.

Waterloo Lane is part of Douglas County’s Five Year Transportation Plan, is a plan developed to meet the projected short-term transportation needs of Douglas County. The goal of the plan is to provide a safe and efficient transportation system which facilitates vehicular, bicycle, and pedestrian traffic within the financial constraints of existing funding. The 2017 plan can be viewed at <http://www.douglascountynv.gov/documentcenter/view/6640>
